

Brief Summary of Terms

Accordable Contract Management Platform

Note: This summary is provided for convenience only. The full Terms of Service at accordable.ai/terms are legally binding and control in all cases.

What Accordable Does

Accordable is a software platform that helps organizations store, organize, and analyze contracts. It uses AI to surface key dates, obligations, and risks so nothing important is missed. Accordable does not provide legal advice and is not a substitute for an attorney.

Who This Is For

Accordable is designed for:

- Organizations of all sizes that manage signed contracts
- Businesses and nonprofits that want better visibility into obligations, renewals, and risks
- Teams that need post-execution contract intelligence without dedicated legal infrastructure

Who This Is Not For

Accordable is not intended to:

- Replace legal counsel
- Make legal determinations or decisions for you
- Be the sole source of truth without human review
- Guarantee legal compliance or outcomes

You are responsible for reviewing contracts and confirming all AI-generated information.

How AI Is Used

- Accordable uses AI to summarize contracts and extract key information.
- AI is probabilistic and can make mistakes.
- All AI output must be reviewed against the original contract.
- Any draft notices, summaries, or insights are provided for convenience only.

Your Data

- You own all contracts and data you upload.
- Your data is not used to train public AI models.
- You control user access, roles, and permissions.
- You may export or delete your data at any time.

Security at a Glance

- Contracts are encrypted in transit and at rest.
- Access is controlled through role-based permissions.
- All activity is logged with audit trails.
- Data is isolated by organization (no cross-tenant access).
- Industry-standard safeguards are used, though no system can be 100% secure.

More details are available on our [Security page](#).

Billing & Subscriptions

- Plans are billed monthly and renew automatically unless canceled.
- Fees are non-refundable.
- You may upgrade or downgrade plans at any time.

If Something Goes Wrong

- Accordable's total liability is limited to the fees you paid in the prior six months.
- We are not responsible for indirect or consequential losses.
- If you are dissatisfied, your primary remedy is to cancel the service.

Termination & Data Retention

- Either party may terminate the agreement as outlined in the Terms.
- After termination, your data may be deleted following a short retention period.

Disputes

- The agreement is governed by California law.
- Disputes are resolved through binding arbitration rather than court proceedings.
